TECHNICAL SERVICES PROVIDED TO OUR ESTEEMED CLIENTS

Project Brief

From small-scale units to large-capacity dairies, we design and deliver turnkey projects tailored to your vision.

Assisted in Camel Milk Powder Plant and Fruit & Vegetable Plant Set Up

Partnered with leading cooperative dairies to identify improvement areas and provide practical, result-driven inputs.

Developed a range of health-focused products such as high-protein yoghurt, low-fat mayonnaise from healthy oils, and other functional dairy & food innovations.

Developed gourmet ice cream flavors, frozen desserts, and differentiated products that stand out in the market.

Formulated premium stabilizer and emulsifier blends for ice creams and frozen desserts—delivering quality at optimized cost.

Engineered tailor-made equipment and process lines to meet unique production requirements with efficiency and reliability.

Provide Operational Excellence & Process Optimization through proven systems and technologies.

Provided Regulatory Guidance on FSSAI norms and international standards, ensuring your products meet safety and regulatory benchmarks.

Trained technical team to adopt best practices, handle new technologies, and deliver superior products.

Assisted in pilot trials, formulation improvements, and scaling up innovative concepts to commercial production.
